SIZE CHART & TECHPACK INFORMATION

We offer standard EU, US & UK size ranges and can customize sizing as per client requirements. Before production, our team develops complete Tech Packs for each approved style to ensure quality, consistency, and fit accuracy.

What Our Tech Pack Includes:

Measurement Charts: Detailed specs for all sizes (XS–XXL or as required).

Fabric Details: Composition, GSM, and finishing type.

Construction Details: Stitch type, seam placement, trims, and accessories.

Artwork Placement: Printing, embroidery, and logo positioning.

Colorways & Labels: Pantone codes, tags, and packaging references.

Fit Samples: Size sets made before bulk production for final approval.

Production Techpack for reference:

PACKAGING & SHIPPING

At Barn Klader Industry, every order is handled with care and packed to meet international export standards to ensure your products arrive safely and in perfect condition.

Standard Packing Process

Individual Packing: Each garment in polybag with size/label tag.

Carton Packing: Export-grade 5-ply cartons, moisture resistant.

Carton Dimensions: 60 × 40 × 40 cm (customizable).

Pieces per Carton: 20–30 pcs depending on product.

Labeling: Custom hangtags, barcodes, and stickers available.

Customization Options

Custom Branding: Hangtags, woven labels, barcodes, and printed polybags available as per brand identity.

Special Packaging: Sustainable/recyclable materials available on request.

Assorted Packing: Mix sizes and colors in one carton if required by the buyer.

Shipping & Logistics

Shipping Terms: FOB, CIF, or DDP available based on buyer preference.

Delivery Ports: Karachi or Sialkot (Pakistan).

Freight Options: Air, sea, or courier (DHL, FedEx, UPS).

Note: Packaging and shipping can be fully customized to meet your brand or buyer requirements.

MANUFACTURING CAPABILITIES

At Barn Klader Industry, we combine craftsmanship, technology, and efficiency to deliver world class apparel manufacturing solutions. From fabric sourcing to final inspection, every process is handled under one roof with strict quality control.

Production Facilities

- In-house cutting, stitching, printing, and embroidery units.
- Modern industrial sewing machines for woven and knit garments.
- CAD pattern making & digital grading for size accuracy.
- Dedicated sampling department for development and fit approval.
- Quality Control team monitoring each stage of production.

Production Capacity

Monthly output: 20,000–25,000 pcs (scalable with demand).

MOQ: 10 pcs per style/color (100 pcs test order available).

Lead Time: 30–45 days for bulk orders after sample approval.

Sampling Time: 7–10 days for regular styles, 12–15 days for new developments.

DOCUMENTS PROVIDED

- COMMERCIAL INVOICE & PACKING LIST
- CERTIFICATE OF ORIGIN
- BILL OF LADING OR AIRWAY BILL
- INSPECTION REPORTS & SHIPMENT PHOTOS (UPON REQUEST)

BARN KLADER INDUSTRY is committed to transparency, quality, and long-term business relationships. All documentation, samples, and certifications can be shared upon request to ensure complete buyers confidence.
